For service in the tropics an additional \$2.50 a month is allowed Norwegian officers and men, while slight increases are also granted for three, six and nime years services with the same owners, Both officers and men receive a low rate of overtime for extra-work, But making allowances for these factors. Says the shipowners statement, the wages of most Norwegian merchant officers and seamen are about one-half the standard rates of the American merchant marine. The new rates, however, do not apply to the transatlantic service of the Norwegian-American Line.
